[Gary W. Hardin](#)

"The New Christmas Message from the Angelic Realm"

If you have an interest on what Earth has in store, you will want to hear Gary's presentation on the latest messages from the angelic realm. "Angels are now informing us about the coming 1,000 years of peace, which will soon be upon us," says Gary. "Instead of shepherds serving as witnesses to this event, we will have quantum physicists who will scientifically support the angelic messages. The messages are coming now and the momentous Earth events are beginning," he says.

You will see a bizarre, yet honest and realistic mutual discovery dialogue between scientists and mystics, so come and enjoy this interactive presentation in which Mr. Hardin will demonstrate what both quantum physicists and angels are now telling us. According to Hardin, the angels are saying, "You stand once again at Eden's gate. You have only to unlock the gate and you hold the keys."

As a New York Times best-selling author for his books, "The Messengers," and "The Days of Wonder," Gary Hardin is considered one of the best current storytellers in the non-fiction counter-culture genre. His commitment to bringing controversial and important messages into public awareness, along with his unique blend of compassion and tolerance, has been put to the test and proven solid, as evidenced by his demand as a speaker, radio personality and as a conference keynote lecturer.

Gary Hardin has been a featured speaker at colleges, universities, and professional gatherings throughout the country. On the West Coast, his first title, "The Messengers," remained the number-one bestseller for three months on the Moving Word Bestseller List. With his latest co-authored book, "On the Wings of Heaven," he has written another true story based upon messages from the angelic realm.

[Dr. Robert Siblerud](#), Author

The Unknown Life of Jesus: Correcting the Church Myth

Dr. Robert Sibley brings you a surprising messages from his recently published book by the same title. This new book shares secrets about Jesus' life that have been hidden from the world for almost two millennia. Hear how the early Church created myths about Jesus by incorporating pagan beliefs and doctrines from other religions into the teachings of Jesus. Dr. Sibley found that over the centuries these myths were perpetuated through corrupt editing of the New Testament by the proto-Orthodox Church.

Recently discovered manuscripts written in Aramaic, the language Jesus spoke and wrote, contradict many of the New Testament writings.

Included in the book are childhood stories of Jesus, currently unknown to most people. The last years of Jesus' life are also explained, giving solid evidence that he studied the teachings of Buddha and Hinduism while in India. Evidence also shows that Jesus survived the crucifixion and continued his life of teaching in Kashmir, where he was buried after living well past 100 years of age. Dr. Sibley's research shows Jesus was married to Mary Magdalene, who bore him three children.

Over the centuries, the Priory of Sion in France, an organization that claims to be the founder of the Knights Templar and forerunner of the Freemasons, was the keeper of secret documents. Now, the Priory is releasing this hidden knowledge to the world, and identifying the genetic descendents of Jesus.

Dr. Sibley diligently researched ancient manuscripts and the commentaries of other researchers who also studied the manuscripts. His astonishing book is the result of this intense effort. Come hear the incredible story of the real life of Jesus.

Dr. Sibley is co-founder and Director of the International Association of New Science, former president and current Board member of SPRE and author of four books on the science underlying spirituality.

[Gene Koonce](#), VIBE Inventor

Vibrational Integrated Bio-photonic Energizer

Come learn how Gene Koonce invented the Vibrational Integrated Bio-photonic Energizer (VIBE) machine three years ago to bring the body's vibrational levels back to their natural healthy state after an illness. Witness a bio-electronic magnetic energy device, which increases the amplitude of human cell frequencies.

Koonce says that, in the human body, each cell resonates (or vibrates) at a specific frequency. Our bodies consist of a variety of atoms, each of which contains photons and electrons with an overall bio-electronic energy running through it.

Healthy cells have voltages of negative 70 to 90 milli-volts. Due to the stresses of everyday life, plus living in a toxic environment, cell voltages are lowered. If we become sick, or as we age, our cell voltage levels drop. If cell voltage drops as low as 50, the individual has chronic fatigue syndrome and reduced immunity to disease. Toxins such as alcohol, drugs, nicotine, caffeine and environmental pollution can overwhelm the immune system and create an imbalance, which lowers the body's energy and voltage levels.

To find a solution to these health problems, Gene Koonce researched an invention by Dr. Georges Lakhovsky, who lived and worked in the early part of the last century.

Dr. Lakhovsky discovered that human cells are like miniature batteries and he also discovered how to recharge them. If Dr. Lakhovsky transmitted energy back into unhealthy cells, he found that their voltage levels raised and that they would become healthy again.

Gene Koonce advanced Dr. Lakhovsky's work in inventing the VIBE machine. Come join us and hear him describe the VIBE machine and recount how he has improved people's health.

Keturah McMillin, Medical Intuitive

Preparing for Mary Magdalene

Are you prepared to be a light of luminous-vibrating-pulsating Essence of God?

Keturah is preparing herself and others in her work as a medical intuitive, spiritual counselor, healer, physical therapist assistant and metaphysician. She is learning the truths of balance on a personal, global, spiritual and inter-dimensional scale. She has been asked to be a spokesperson for present day Mary Magdalene in the Fort Collins area and has agreed to work with individuals and groups to bring the message of Mary Magdalene into greater fruition.

Mary Magdalene's message is about the healing of planet Earth to bring it into balance and to hold its place in this universe. Balance is required so that Earth can continue and so humanity can move from the fourth dimension into the fifth. According to Keturah, Mary Magdalene is assisting in raising Earth's vibration through embracing the divine in all of us through unconditional love and compassion for all of humanity. She wishes to remind us that we are spirit living an earthly experience in a human body. Learn about present day Mary Magdalene, her remembrances and her conscious acceptance of DNA and higher frequencies of vibration. Are you ready to be a light of luminous-vibrating-pulsating Essence of God?

A channeled message from Jessiah, the God Child, will be shared at the meeting. Keturah will guide a meditation and visualization to assist in our being that Essence of God for the return of the divine, as Jessiah, at the appointed time in the spring. According to Keturah, we are all supposed to be here at this time, as we have agreed to participate in being one with the higher vibration frequency of the fifth dimensional kingdom.

May 2003

Sallie Austin, Cultural Anthropologist

Forbidden Ancient Anomalies

News of an archeological discovery that challenges scientific thinking rarely reaches the public. Sally Austin, Cultural Anthropologist, shared information about ancient anomalies such as the discovery in 1938 or 1940 of the HAN civilization in China that dated to 12,000 years ago. Some disks were found with writing on them and a hole in the center. The story from the villagers was that a space ship landed with beings similar to humans or apes. The ship was crippled and they had no means of return. The Villagers began killing the creatures, because they were so different, then stopped doing this when someone in the village convinced them that the creatures were not going to hurt them.

Interesting anomalies included:

- Egyptian hieroglyphics and a "Temple of Isis" in the Grand Canyon

- Australian alignments to Stone Henge
- Sunken city west of Cuba (under water)
- Celtic ogums in Colorado near Springfield; ogums are petroglyphic markings in lines
- Hebrew hieroglyphics in La Junta, Colorado
- Pyramids found under water in Hawaii
- Miami Circle; a circle cut in limestone found when digging up a parking lot

Holes

The Blue Hole near Belize is a totally perfect circle with walls for quite far down. In Little Salt Spring, Florida (Port Charlotte) human remains dating 10,000 years old were discovered. The skulls did not have the correctly shaped eye sockets to be Native American. This hole also contained ceramic looking objects that would not break, and remains the size of children of an unidentifiable race. The Antarctica hole exists with stories of beings coming and going.

Glass Lakes

Glass lakes of green or yellow are found in deserts and China. Some of this glass was used by the Egyptians to make jewelry. There is a theory that the glass may be due to particle beams, such as the research by Nikola Tesla. The glass contains no iridium, therefore is not caused by a meteor impact.

Sally explained that the suppression of information about archeological/anthropological finds is due to the egos of the individuals involved, institutional ego and funding, as well as fear of upsetting the old paradigm. Old views of how things are far more appealing, for as Sally said, "people would rather live in pain with what they know, than change their views."

April 2003

[Al Bielek](#)

The Philadelphia Experiment, The Rest of The Story

Al Bielek, scientist, author, lecturer and former member of the US Navy, spoke at the SPRE meeting two years ago about the 1943 Philadelphia Experiment, in which he participated and which he survived. In this visit to SPRE, he explained more about the secret projects he was involved in from 1943 to the future 28th century through time travel, as well as important events around the Philadelphia Experiment (making a battleship invisible) which occurred every 20 years beginning August 1943 and continuing through August 2003. Not only has Al Bielek regained much of his memory of the Philadelphia Experiment and the Montauk research (mind control and a many other experiments), both of which he spoke of two years ago, but his informants on "the inside" are giving him new information.

Some of this "inside" information included the Montauk experiment, which, according to Al, became a German research project after the U.S. government pulled out of it in 1958. Al explained that the Philadelphia experiment in August 12, 1943, locked into a time-warp with the Montauk experiment of August 12, 1983 creating a time travel conflict. Al maintains that time travel and mind control have been ongoing since the 1940s, and that Montauk still exists.

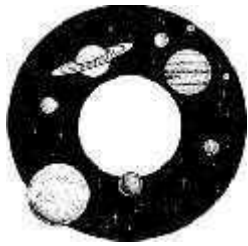

Nikola Tesla was an early participant of the Philadelphia Experiment (the 1940s), although when he realized what the government intended to do with it and the danger to people on the ship, he withdrew from the project. In that time period Tesla was working to develop equipment that could help members of the crew due to a "time stream lock, which allows those involved to flow with the system so interaction is possible." Al explained that time locks are fragile and that the power of the project disrupted the time-locks of the people on the deck of the ship. When the ship came back in time, the people did not come back to the same reference. Tesla's theory regarding a time-lock is that if moved forward in time, aging could be removed from the body. The government developed this into an age regression program, physically regressing an individual back to any age, including infancy. However, the individual retained the memory developed from their original age. Al Bielek believes that he underwent this type of regression and was another personality who boarded the ship after the Philadelphia Experiment had failed.

March 2003

Mark Hazelwood

Planet X

There may be more than nine planets in the solar system, says Mark Hazlewood. According to Mark, Planet X is real and it is inbound. Its approach is currently causing the Earth to experience seismic, volcanic, and weather related problems. Why is there no news coverage on this allegedly impending event?

Zecharia Sitchin, the world-renowned scholar, archaeologist and author of The 12th Planet, talks of the return of Nibiru during this time. A group of Russian scientists held several meetings in 2000 to discuss the inbound planet, discovered by one of their largest observatories. A 66 year old professor and physicist attended these meetings. He apparently spoke to the press and this led to the infamous "2003 Problem" from a Reuters news service wire on Sept. 13th, 2000. Top Russian government officials called for a commission to study the "problem," which was said to be the future cause of Earth changes.

Earth could possibly go through massive earth-changes as early as spring of 2003 as a result of the passage of the 10th planet through our solar system. Insiders from NASA, Dept. of Defense, Search for Extra Terrestrial Intelligence (SETI) and the CIA speculate that large segments of the population could perish during a possible pole shift caused by the passage of Planet X. Most government agencies in the USA are fully aware of what is expected and are taking steps to protect themselves. The Vatican is fully abreast of what is expected. According to Mark Hazelwood, the public alone is not being warned and thereby given their chance to prepare for survival.

[Margi LaGrotta and Michael Catalano from the Institute of Spiritual Partnerships](#)

The Mystery and Mastery of Relationships

Are you ready to move beyond painful relationships? Come hear Margi LaGrotta and Michael Catalano and learn why you have

difficult or ineffective romantic, personal and business relationships and what you can do about them. You can also experience fulfillment in expanding your self-awareness and deepening your ability to create the best possible relationships.

Along with many new and surprising concepts, you will find out;

- Why you choose the wrong partners
 - How defensive styles prevent growth, intimacy and playfulness
 - How to identify truly compatible partners
- How to tell when you engage in self-sabotage (seduction, control, expectations and romantic mythology)

Relationships can be a creative foundation to enhance and affirm personal expression, allowing individuals to learn and grow together. We will examine the primary obstacles to enlightened relationships, including how attractions can unintentionally lead to entanglements. Being in higher alignment enhances our connections to our spiritual and creative sources as we learn the autonomy, intimacy, and creativity skills, which will ultimately lead to enlightened relationships.

The Higher Alignment and Creative Alignment processes focus on three areas that contribute to truly effective relationships:

- Our skills (such as autonomy, intimacy and creativity),
- Our life task alignment (work that is mutually joyful and effortless) and
- Creative compatibility (an understanding of our differences and similarities).

The greater the differences we have with others, such as in communication styles, the more we need to improve our skills and life task alignment to neutralize any potential difficulties. The more similarities we share with others, the more we have to deepen our love and acceptance of ourselves in order to more fully love others.

The Institute for Spiritual Partnerships (ISP) was founded by Larry Byram in 1999. ISP is based on Larry's earlier research on 700 couples who reported having great relationships. Thirty-three of those relationships were truly exceptional after they began doing synergistic, co-

creative projects that served other people. This quality relationship is now known as a spiritual partnership.

Gary W. Hardin

ANGELIC PROPHECY ON CHILDREN OF THE NEW EARTH

New York Times best-selling author, Gary W. Hardin, will present a lecture on *"Angelic Prophecy on Children of the New Earth."* Hardin's national best-selling book, "The Messengers," touches on the prophetic advent of a new world. His second co-authored book, "On the Wings of Heaven," takes this information a step further, as it is based on messages from the angelic realm. In addition, he will cite prophetic excerpts from his forthcoming book, "Living in the Days of Wonder; Dawn of a Great Tomorrow," the long-awaited sequel to "The Messengers." Hardin believes the new earth is presently manifesting.

Joining Hardin in his presentation will be Joey Klein, a twenty-year-old adept who will speak of his experience six months ago when he was unexpectedly struck by a divine light, a phenomenon that is occurring throughout the country. Studying under Hardin's tutelage, Klein has awakened to his powers to help others heal. Joey Klein's new consciousness and abilities will be demonstrated to the audience.

The children of the new earth are being awakened. They seek out older people, who serve as figures of wisdom and partners in the unfolding of this new world of consciousness. What kind of world is before us? As the hounds of war begin to howl, the children of the new earth begin their healing. Which paradigm will be the model for this new earth? Come and find out.
