

2004 Program Listing

December 12, 2004

Mary Fox, Full Spectrum Healer; Certified Practitioner in Yuen Method Energetics, in Eric Pearl's Reconnective Healing and in Level One Healing touch for Health. She is also a Certified Instructor in Yuen Method Introductory Level.

Full Spectrum Healing

Imagine your life without pain, ailments or limitations. Full Spectrum Healing locates the energetic causes of physical and emotional issues on all levels of influences—known and unknown. Finding the cause of a health, psychological or emotional issue and clearing to the quantum level and beyond, releases physical symptoms, emotional fears, phobias, limitations and karmas. The path to health, prosperity, success and freedom from pain is the birthright of every human being. Mary Fox learned about healing by learning to heal herself and she will tell us how she did it.

As human beings we are the same in many respects, yet very different. We have our own thoughts, fears, loves and hates and we have many levels of consciousness. What we say and consciously think is not always what we subconsciously support. We think, and many times truly believe, we know what we want but our subconscious may or may not be in agreement. Until all levels of consciousness support our wants and wishes, we will not achieve our goals.

In the Western world pain is usually treated with drugs or devices. In the East, pain is seen as a symptom of a deeper problem indicating that something is wrong with the flow of energy in the body. Mary Fox heard about a healing modality called Yuen Method Energetics and followed up by visiting a practitioner. She regained her health and went on to study the Yuen Method.

Yuen Method Energetics make it possible to clear and correct multiple layers of consciousness that keep us from manifesting our highest potential. The premise of energetics is that our bodies function like a computer—we are either on or off, strong or weak to any flow of energy. The Yuen Method works to align all levels of consciousness so that pain may be eliminated and our goals realized. We must energetically peel away the layers of problems until we find the true cause. It is only then that healing can take place.

Mary also studied Eric Pearl's Reconnective Healing, which is God-energy channeled through her to the subject's higher self. The energy also reconnects missing strands of DNA. Level One

Healing Touch for Health permits her to heal emotions, charkas, organs and muscles, their relationships and how they are affected by different times of the day. In her practice she uses all three healing techniques to achieve healing face-to-face, over the phone and for healing animals.

November 21, 2004

Cornelia Jarica, BS, MA; Founder, Chairman, President and CEO of the Colloquium on Quantum Physics, Consciousness, and Being

“What (the bleep) is the Nature of Reality and Why (the bleep) Should You Care? Exploring Quantum Phenomena, Consciousness, and YOU!”

From her research, Cornelia Jarica observed that physicists refer to quantum phenomena with expressions ranging from weird, crazy, and mysterious to counter-intuitive, mind boggling, and incomprehensible. Scholar, visionary, and modern mystic, Ms. Jarica will introduce us to the world of sub-atomic physics and provide us with intriguing insights into quantum phenomena. Laboratory experiments demonstrate that fundamental particles like electrons are both waves and matter at the same time, display knowing and intelligence, and exhibit instantaneous knowing about one another across space.

The 501(c)3 non-profit organization she heads is dedicated to examining the implications of quantum phenomena, consciousness and being, and to providing public education. Its mission is to increase human happiness and appreciation of life. It is hoped that this will be accomplished by exploring the mysteries of existence and the powers that are creating and maintaining the universe - in search for the ultimate reality or the Absolute.

Cornelia will discuss how hopelessly flawed human sensory perception is. According to physics, all matter consists of 99.99% empty space or vacuum. What is it then that we experience as a separate, physical world? The interaction of electrons and photons and the electromagnetic force they represent gives us the impression of a world of solids, liquids, and gases. The only existing reality seems to be that of an image created in our minds, evoking thoughts and conjuring feelings, all of which are intangible and transcend space and time.

From her studies Ms. Jarica concludes that all conscious observers create their own reality. However, most of us seem to be creating our reality more “by default” than deliberately. It is the organization’s research hypothesis that humans, through the expansion of their

consciousness, are increasingly connected to nature’s ingenuity, playfulness, and abundance. The message that Cornelia brings is that we can learn to create intentionally by allowing the cosmic powers to fulfill our desires. Join us to hear a fascinating lecture about the world we cannot see, but which we nonetheless create ourselves, from an advocate of scientific concepts, spiritual principles, and a teacher of Unconditional Happiness.

[Julia Ingram](#), popular teacher and workshop facilitator

“The Lost Sisterhood”

Julia Ingram is a *New York Times* best-selling author and psychotherapist/hypnotherapist. She has over thirty-six years of clinical experience and specialized in regression/spiritual therapy for the past eighteen years.

The Messengers, Ingram’s first book was co-authored with Gary W. Hardin. Web site: www.juliaingram.com

In her lecture, Julia takes us where *The Da Vinci Code* doesn’t go—and that is into the hearts and minds of Mary Magdalene, Mother Mary and other women who were Jesus’ teachers, disciples, lovers and apostles.

[Kari Chapman](#)

“Protocol of the New Consciousness” We Are The New Civilization

Kari Chapman is known for her heart energy, love, spiritual integrity and non-judgment. Her heart is fully open and she definitely walks her talk. As a conscious channel, Kari conducts her lectures with Archangel Michael with profound accuracy and great insight.

Archangel Michael and many other masters say it is time for the teachings of the Laws of Life and Protocol to come to the masses, that we are ready and the time is NOW! The Laws of Life are universal laws that guide and govern our Universe. These laws give us a better understanding of life, based on the laws of energy. Our consciousness, soul advancement and mastery depend on knowing and applying these laws in our daily lives.

Archangel Michael will begin the lecture with an opening prayer and ceremony. Kari will guide the audience in a meditation that will connect us with Mother Earth, open our hearts and connect each one consciously with all levels of his/her own Oversoul.

Michael and Kari will cover the Laws of Life, protocol, spiritual integrity, discernment, empathics, discipline, personal protection and boundaries, the Oversoul and co-creation.

We will learn Archangel Michael's prayers of protection and clearing, learn about the robotic energies and the nature of the new Galactic DNA (GNA). The lecture will end with an open question and answer period and a very special song done with the audience in KIRTAN – an ancient musical chant incorporating Sanskrit.

Kari has a unique ability to reduce complicated matrices into simple shifts as she allows the energies of the Christ Consciousness to flow through her, aligning each person with their next octave. She is the founder and president of the Namaste Retreat Center of Wisconsin, Inc., a 501C3 spiritual education organization and a safe and sacred place for spiritual growth, understanding and healing.

To learn more about Kari and the Namaste Retreat Center of Wisconsin you can go to her website: www.namaste-wi.com.

“Grandmother” Chandra

Earth Changes, Planetary Predictions and Planet X

Grandmother Chandra is a title of honor that was bestowed on this 20-year old clairvoyant, clairaudient and clairsentient woman born with multiple handicaps. Native American people give this title to those who have knowledge far beyond their age. In addition to being a “clear channel of light,” she is a futurist, sees people’s energy fields and reads past and present lives. She is highly telepathic with many

people, but in conversation with non-telepathics, she uses a “talking board,” and is assisted by her Mother to communicate.

So severely handicapped at birth, she was not expected to live beyond the age of five. Her Mother not only kept her alive, but sought out alternative healing modalities that improved her health to the point that she could function well and be of great service to humanity.

During her SPRE presentation, Grandmother Chandra will answer questions from the audience about any spiritual topic that people have questions about. Before coming to the meeting, write down your questions for Grandmother Chandra concerning earth changes, our galaxy and Planet X. Personal questions about one’s own future, past lives, etc., can be answered by email after she returns home to Phoenix. For more information visit; http://www.earthstarcreations.com/grandmother_chandra.htm.

She also utilizes the sacred text, *The Keys of Enoch: The Book of Knowledge* as a source of knowing and a means to answer peoples’ questions. She memorized it page by page and references passages that answer questions about many different topics.

Grandmother is a member of James Twyman’s Indigo Children’s network. She will also tell us why Indigo Children are so important in the world at this time of change.

[Nancy OGren, Astrologer, Author and Lecturer](#)

Truths about the New Age

While the “New Age” seems to have burst forth in the 1960’s, Nancy Ogren thinks it was a mere glimmer of the opportunities that have been offered to humanity for thousands of years. New age concepts from the teachings of ancient spiritual leaders and prophets, as well as Egyptian and Mayan writings, have been brought forth throughout the ages, but have been limited in interpretation or have been misinterpreted.

Nancy says, “Humanity is in an initiation phase, globally in many respects and for the U.S. in particular. This country is a microcosm of world history. We are so young that we haven’t had time to establish our mature national potential.”

Utilizing many avenues of information including astrology, in her talk, Nancy will focus on what we can do to bring ourselves into commitment to a future of surviving and thriving as individuals, as a nation and as a planet.

Our nation's astrological chart is starting a new 30-year cycle on November 1, 2004. The U.S. has been in the sign of Aquarius for the past 30 years and will move into Pisces in November, whereas Earth is leaving Pisces, where it has been for 2000 years, and moving into Aquarius. According to Nancy, this is the age when humanity will seek truths, including those of the lost Gnostic gospels.

During the last 30 years, the U.S. thought its destiny was to be the leader of the world. Nancy predicts that in the next thirty years, we will not feel the same urgency to tell other countries what to do. Beginning with the election in November 2004, there may well be a change in our leadership to reflect the direction we must go in the future.

Nancy Miller Ogren has blessed people with her intuitive gifts, astrological skills, and energetic processes. She resides in Colorado and facilitates workshops using the *Pathways of the Soul* card set she authored. She also publishes a Daybook/ Journal called *MoonWise Path*, highlighting the New Moon and Full Moon energies for each month. She has been a guest on many radio shows around the country. Visit her website at www.nancyogren.com.

[Reverend Krista Socash](#)

Meeting Your Angels and Spirit Guides

Krista Socash discovered that most everyone she talks to is curious about his/her spirit guides. She says that all of us have guides, but to understand why, we have to go back to the beginning. Before we incarnated into our present bodies, we made a plan for this lifetime. We looked at what we wanted to learn and accomplish and who we wanted to be. We gave ourselves a blueprint to follow with the freedom to change it at any time.

Krista says, after we are born, if we find that we need help along the way, we can call in familiar spirits to help guide us through life's phases. Guides can be angels, masters, beings of love, guides that help with traffic lights or all of the above. Whatever their specialty, we chose them to assist us in this lifetime. They help us make beneficial choices, keep us safe and comfort us.

Since we have a body, we do all the physical work but guides are glad to assist. Just as we are happy to help our friends or family through a difficulty, our guides are happy to help us. True guidance can come in many ways; a feeling, a thought, a physical presence, or a voice. True guidance leaves us empowered, rather than frightened or feeling reprimanded. Our guides may offer us observations, suggestions or options. They will not intervene and take charge of a situation unless we ask them

to. We can even have fun asking them for help with traffic, free dinners, gifts and healings.

Krista will talk about how we can access our guides to make our lives run smoother, which can free our energy to help humanity and the planet. One of the many purposes that guides have is to bring more harmony, growth and healing to the planet through working with us and through us.

Rev. Krista Socash teaches classes and leads psychic demos in the community for Psychic Horizons Center in Boulder, CO. Call her for a reading or information at 303-440-7171.

[Reverend Krista Socash](#)

Your Relationship with Money; Understanding How Money Works as Energy

Krista Socash once heard that the definition of being rich is not working for money, but having money work for you. If we want to make an attitudinal change about money, there are quick fixes and lasting fixes. If we want the change to last, we have to change our lifestyles, Krista says. We can find a temporary fix, but then we find ourselves in the same situation, because we haven't changed the way we are creating.

Money has energy. We can learn how to use the energy in money to create money and work with the financial laws of prosperity, she says. What is it that we are putting off and telling ourselves we can't afford, yet are drawn to? If we keep telling ourselves we can't afford it, we will continue to create and recreate that we can't afford it!

According to Krista, if we want to make a change in our finances, a basic yet powerful shift we can make is to follow our guidance about where to put our money. Money follows our intent. When we acknowledge we want something, it's on its way, but we need to listen to the guidance we are given about what to do with it.

"I decided to try the 'Ask and you shall receive' paradigm, Krista said. "I had wanted to get my car windows tinted, but didn't have the extra money. That same month I received an extra \$200 pay. Instead of using my guidance and realizing that the money was created for me toward my windows, I spent the money on something else. For several weeks after that, my finances were a mess. It was then I realized I had given away my means! I had started to create the money to have my windows tinted (Ask) and the

money followed right away (and you shall receive). When I had my windows tinted, it came to exactly \$200! As soon as I did that, the flow of money in my life smoothed out.”

Monique de Montaignu

A Message from the Mayan Elders to Humanity on the Coming of the New World of Peace

According to Monique de Montaignu, it was said long ago that the ‘People of the Center’ (Maya) would bring together the peoples of the north and south to ‘The Center of The Hand’ for the Eagle (north) and the Condor (south) to share their wisdom and spiritual teachings for the coming of a new world of peace.

Mayan elders and shamans are now holding daily fire ceremonies. This is also true of the Huichol elders, the Taitas of thread of time from the past, to the present and future, the Amazon, the Aymaras of the Andes and our brothers and sisters in the Sierra Nevada. Each group is working within their own traditions and mystical knowledge to create a balance called "El K'uxaaj Saq Be," the path of positive energy or ‘The White Path of the Heart.’

In her presentation, Monique will share the wisdom of the Mayan calendars and their message for humanity. Mayan ancient wisdom (preserved in 20 calendars), monitors the patterns of the planets, stars and Earth through cycles of 13 numbers and 20 glyphs. According to Monique, the numbers and glyphs are symbols of sacred laws and guardians of the sacred day, giving the Mayans the gift of prophecy. Each day a Mayan cross is formed within the thread of time from the past, to the present and future. Each day is given a ‘heart’ and a guardian.

According to Mayan beliefs, humanity now stands at a crossroads where two destinies beckon. Each person has a gift, a mission and responsibility to use their powers to assist in the coming of a new world on December 21, 2012. There will be many challenges to reach this new world of peace and doorways in time where we can collectively influence and harmonize our destinies. We have collective and individual choices to make for the protection of the Earth, all people and all life. The Mayans sound a clarion call to all wisdom keepers and people of all nations to participate in this great venture.

Monique de Montaigu, is a Spiritual Traditions Initiate of the Maya Kiche in Guatemala.
