Drs. Jackson and Fisk are co-founders of “Jackson Fisk Body and Soul,” an integrative health care practice in Fort Collins. Dr. Amy Jackson is an intuitive diagnostician, energy healer and spiritual advisor. She graduated summa cum laude from Life Chiropractic College West after receiving her B.A. with a full academic scholarship. Dr. Jackson was diagnosed with fibromyalgia in 1998 and nearly died. Through the use of natural and spiritual healing practices, she has been symptom free for over seven years.

Dr. Peter Fisk is a chiropractor, educator and healer. He has studied and utilized natural methods for over 30 years. Dr. Fisk holds a B. A. in Transformational Studies. He graduated summa cum laude from Life Chiropractic College West and later directed the International Chiropractic Center in Perugia, Italy, as well as founding Body Mind Chiropractic in San Francisco, CA.

Drs. Jackson and Fisk utilize Somato Respiratory Integration (SRI), based on *The Twelve Stages of Healing* by Donald Epstein. The process helps the body reconnect with the brain and its experience. The goal of SRI is to help an individual develop lifetime skills, safety, strength, inner wisdom and love in relationship to your body, its vibrational structure and energy. SRI is marked by cognitive attention to breath, motion and self awareness as they relate to embodiment, empowerment and transcendent states of consciousness.
