JoAnn Parks will tell us the amazing story of how Norbu Chen passed the crystal skull to her right before his death. Hear how she moved from talking to the “rock” in her closet to being an internationally recognized peace elder offering healing and consciousness-raising sessions with Max, the Crystal Skull. Each person attending the Friday meeting will have time to spend with Max. Max is considered by many, including the British Museum, to be one of the rarest artifacts ever found. Estimated to be at least 10,000 years old, MAX was used by Mayan priests in Guatemala for healing and prayer.

Max was given to Norbu Chen, a powerful healer of the Tibetan sect of Red Hat Lamas. In JoAnn’s experience, Max is perfectly attuned to the Christ Consciousness and transmits this state to people who meditate with him. Many who have been in the presence of crystal skulls have had a range of experiences including receiving instantaneous healing, visions of other worlds, higher states of consciousness and expanded intuitive abilities. To this day, Max is used as a tool for awakening consciousness and accelerating healing and growth on all levels.
