Exploring the Subconscious Mind

Caryll Luke Cram MS, MA

Psychotherapist, Mind Detective

You have heard people say that we only use about 5% of our mind. What do you suppose the other 95% is doing? Would you be surprised to learn that the 95% of your mind that supposedly is not being used, is actually controlling 100% of your relationships, finances, business, health and whatever else has become a habit that you can't control? Caryll will explore the Subconscious mind and how it affects everything that you do. She will also talk about some kewl tricks to help you outwit this often uncontrollable power.

Ghosts and Spirits and Orbs - Oh My!

Faith Ranoli, Ph.D

Environmental Consultant,

Author, Teacher and Radio Host

October 15,
2010
Friday 7 PM

Faith Ranoli, Ph.D.

As we approach a spirit-filled time of the year, it is fitting that we delve into some of the areas that are associated with the spiritual and supernatural energy fields.

Ranoli will help us look beyond the physical and discuss how we can recognize spiritual activity in and around our homes, how to know if some part of your home is inhabited by other world beings. Some ideas on ways to release compassionate souls, protect ourselves and our loved ones, and what the difference is between Spirits and Ghosts. She will also talk about some common signs associated with the haunting of a house. If you were here for Faith's presentation last year on Walk-ins you know that you won't want to miss this one. Especially with Halloween on its way. Oh My!

Somatic Archaeology™

Ruby Gibson ThM

Discover how trauma from past generations can manifest in your life as pain, disease, addictions, emotional patterns, and repetitive circumstances.

Somatic Archaeology™ is a generational healing technique used to

consciously reconcile the past, thereby reducing the burdens passed onto the next seven generations. Our presentation will focus on how many of us unconsciously live out the consequences of cause and effect, while never recognizing that we have the power and capacity to

change our Life Story – for ourselves, for our family, for our children and for our Earth. Somatic Archaeology™ provides us with a 5-step process which unearths the origins of and heals buried memories, historical amnesia, and the ensuing patterns of grief, chronic pain, addictions, anger, repetitive patterns, emotional burdens, stress syndromes, and relational issues.

The Gift of the Shift:

2012 and Beyond

SPRE will end its year with a panel of experts from several disciplines, who will present tools and tips in preparation for 2012.

Featured Panelists:

Optimistic about the coming year, SPRE is aware only one thing is certain, there will be change. Tony Robbins once said, "*The quality of a person's life is determined by the quality of the questions they ask*". With that in mind, our panel of experts will address important questions about the new year in the May presentation.

2012 Community Forum

Saturday, May 21, 2011 9:30-11:30 AM

CUMC Fellowship Hall, 301 E Drake, Fort Collins

This is your opportunity to connect with others and discuss how each of us can play our part in preparing for 2012, whatever it may bring.

The focus will be on unity consciousness, collaboration, cooperation, and exploring the Divine role of the individual in the light of the community. Through the use of small discussion groups, this forum will be a kind of think tank to explore ways of promoting community connection, sustainability, and setting intentions for bringing light or providing service in Northern Colorado.
