Always Something Thought Provoking

Dr. Claude Swanson | Physicist ~ Author

"The Synchronized Universe"

The Science of the Paranormal

Date: November 14th, 2007

Time: 6:45pm - 9:00pm

**Location: Unitarian Universalist Church of Boulder – Sky Room
5001 Pennsylvania Ave , Boulder , CO 80303**

Cost: \$5 per person, \$3 for students

A New Scientific Revolution is quietly underway... Claude's book, *The Synchronized Universe*, reveals that the tapestry of modern science is showing a few tatters...There are many things modern science cannot explain, and yet they occur anyway. This includes phenomena in the "hard sciences" as well as in the paranormal. These effects are now being proven in the laboratory, even though they defy present scientific theory. These unfolding mysteries point the way to a new, deeper science, a science which no longer denies spirit and consciousness, but acknowledges and embraces them.

In the past three decades scientific evidence has accumulated showing that the present scientific paradigm is broken. In the hard sciences: DARK MATTER - THE LAW OF GRAVITY - COLD FUSION – CHARGE CLUSTERS – COSMOLOGY – SPEED OF LIGHT – ESP – PSYCHOKINESIS, OR MIND OVER MATTER – REMOTE VIEWING – TIME AND PROPHECY – OUT-OF-BODY EXPERIENCE – GHOSTS

Dr. Claude Swanson was educated as a physicist at MIT and Princeton University . During those years he worked at the MIT Science Teaching Center , Brookhaven National Laboratory and a Virginia cyclotron in the summer. At Princeton he received the National Science Foundation Fellowship and Putnam Fellowship. His Ph.D. thesis at Princeton was done in the "Gravity Group," which focuses on experimental

cosmology and astronomy, and was headed by Nobel laureate Robert Dicke. Swanson conducted postgraduate work at Princeton and Cornell Universities on the design of superconducting plasma containment vessels for fusion energy systems.
