JoAnn Parks will tell us the amazing story of how Norbu Chen passed the skull to her right before his death. Hear how she moved from talking to the “rock” in her closet to being an internationally recognized peace elder, offering healing and consciousness-raising sessions with the skull. Each person will have time to spend with Max.

Max is considered by many, including the British Museum, to be one of the rarest artifacts ever found. Estimated to be at least 10,000 years old, MAX was used by Mayan priests in Guatemala for healing and prayer. The skull was given to Norbu Chen, a powerful healer of the Tibetan sect of Red Hat Lamas. JoAnn says Max is perfectly attuned to the Christ Consciousness and transmits this state as much as possible to people who meditate with him. Many who have been in the presence of crystal skulls have had a range of experiences including receiving instantaneous healing, information, visions of other worlds and the experience of higher states of consciousness and expanded intuitive abilities. To this day, Max is used as a tool for awakening consciousness and accelerating healing and growth on all levels.
